

The National Federation of the Blind

Advocating for Blind Entrepreneurs Since 1940

When the National Federation of the Blind was founded in 1940, the Randolph-Sheppard program was already a part of federal law. Since our inception, we have fought to protect the Randolph-Sheppard priority as well as the rights of blind vendors and other blind entrepreneurs.

We are proud to be a part of BLAST 2016 and to support opportunities that allow blind businesspeople to live the lives they want.
