

# Partnering for Success!

Hadley's Forsythe Center for Employment and Entrepreneurship is proud to partner with the National Association of Blind Merchants (NABM). Together, through online education, we enhance the business acumen of blind merchants to make calculated business decisions and increase profitability. Our collaborative Business Enterprise Program Licensee Training (BEPLT) trains the next generation of blind entrepreneurs. Our combined efforts enable entrepreneurs to participate in the economy and experience the American Dream.

We commend NABM for its commitment to the excellence of the Randolph-Sheppard Program.

**FSIG works with state agencies to graduate legally blind vendors into independent entrepreneurs.**

FSIG provides legally blind vendors the technical expertise, training, and all necessary financial resources to obtain and operate government contracts with no personal risk.
